Endnotes:

1. Except for optional benefits, if elected, Deductibles and other Cost Sharing payments made by each Member in a Family contribute to the "entire Family of two or more Members" Deductible and Out-of-Pocket Maximum (OOPM). Each Family Member is responsible for the "one Member in a Family of two or more Members" Deductible and OOPM until the Family as a whole meets the "entire Family of two or more Members" Deductible and OOPM. Once the Family as a whole meets the "entire Family of two or more Members" OOPM, the plan pays all costs for Covered Services for all Family Members.

For HDHPs, in a Family plan, an individual Family Member's "any one member in a Family of two or more Members" Deductible, if required, must be the higher of the specified "self-only enrollment" Deductible amount or the IRS minimum of $2,800 for plan year 2021. Once an individual Family Member's "any one member in a Family of two or more Members" Deductible is satisfied, that Member will only be responsible for the Cost Sharing listed for each service. Other Family Members will be required to continue to contribute to the "any one member in a Family of two or more Members" Deductible until the "entire Family of two or more Members" Deductible is met. In a Family plan, an individual Family Member's out-of-pocket contribution is limited to the "any one Member in a Family of two or more Members" annual OOPM amount.

2. Cost Sharing for all Essential Health Benefits, including that which accumulates toward an applicable Deductible, accumulates toward the OOPM.

3. a) Copayments apply per prescription for up to a 30-day supply of prescribed and Medically Necessary generic or brand-name drugs in accordance with formulary guidelines. All Medically Necessary prescription drug Cost Sharing contributes toward the annual Deductible and OOPM.

   b) Member Cost Sharing for orally administered anticancer drugs shall not exceed $250 per prescription for up to a 30-day supply. Members may have a Cost Sharing maximum equal to or lower than $250 as the applicable maximum for oral anticancer drugs is determined by each plan's prescription drug benefits. Orally administered anticancer drugs follow applicable tier-based Cost Sharing. Refer to the Prescription Drugs, Supplies, Equipment and Supplements section of this matrix for Cost Sharing details. For High Deductible Health Plans (HDHPs), oral anticancer drugs on any tier are subject to the annual Deductible and the Cost Sharing maximum will not apply until after the Deductible is met.

   c) FDA-approved, self-administered hormonal contraceptives that are dispensed at one time for a Member by a provider, pharmacist or other location licensed or authorized to dispense drugs or supplies, may be covered at up to a 12-month supply. Cost Sharing for a 12-month supply of contraceptives, when applicable, will be 12 times the retail cost or four times the mail order cost.

   d) Except for Specialty Drugs, up to a 100-day supply is available, at twice the 30-day Copayment price, through the mail order pharmacy. Specialty Drugs are available for up to a 30-day supply through the Specialty Pharmacy.

   e) Some drugs prescribed for sexual dysfunction, such as Cialis, Levitra or Viagra (or the generic equivalent, if available) are limited to 8 doses per 30-day supply.

   f) Upon request from a Member or prescriber, a pharmacist may, but is not required to, dispense a partial fill of a prescription for an oral, solid dosage form of a Schedule II controlled substance in accordance with Section 4052.10 of the California Business and Professions Code. The Cost Sharing for a partial fill of a prescription will be prorated.

4. Other practitioner office visits include therapy visits and other office visits not provided by either PCPs or Specialists or visits not specified in another benefit category.

5. The family planning counseling and services benefit does not include termination of pregnancy or male sterilization procedures, which are covered under the "Outpatient Care" section of the "Your Benefits" chapter in the *Evidence of Coverage and Disclosure Form* (EOC) and included in the Cost Sharing for the outpatient surgery services listed above.

6. Acupuncture is typically provided only for the treatment of nausea or as part of a comprehensive pain management program for the treatment of chronic pain. Chiropractic services are not covered as part of the SHP medical plan.

7. The outpatient visit (non-office visit) category includes, but is not limited to, services such as outpatient chemotherapy, outpatient dialysis, outpatient radiation therapy, outpatient infusion therapy, sleep studies and similar outpatient services performed in a non-office setting. This category also includes storage of cryopreserved reproductive materials included in the fertility preservation services benefit. Storage of cryopreserved materials is not a per visit service and is typically billed on an annual basis at the outpatient visit (non-office visit) Cost Sharing.

8. Inpatient MH/SUD services include, but are not limited to: inpatient psychiatric hospitalization; inpatient chemical dependency hospitalization, including detoxification; mental health psychiatric observation; mental health residential treatment; Substance Use Disorder Transitional Residential Recovery Services in a non-medical residential recovery setting; Substance Use Disorder Treatment for Withdrawal; inpatient Behavioral Health Treatment for Pervasive Developmental Disorder (PDD) and autism.

9. MH/SUD other outpatient services include, but are not limited to: mental health psychological testing; day treatment such as partial hospitalization and intensive outpatient program; outpatient psychiatric observation for acute psychiatric crisis; outpatient Behavioral Health Treatment for Pervasive Developmental Disorder and autism delivered at home; and other outpatient intermediate services that fall between inpatient care and regular outpatient office visits.

10. Cost Sharing for services with Copayments is the lesser of the Copayment amount or allowed amount.

11. In order to be covered, most services require a referral from your PCP and many also require Prior Authorization by your PCP's medical group. Please consult the complete EOC for additional information on referral and Prior Authorization requirements.

12. The deductible will be waived for drugs and services listed in the Internal Revenue Service Notice 2019-45 for the specified diagnoses. Applicable Copayments or Coinsurance will apply. Refer to *irs.gov/pub/irs-drop/n-19-45.pdf* for details.

13. For 2021, this benefit plan provides eligible Medicare beneficiaries with prescription drug coverage that is expected to pay on average as much as the standard Medicare Part D coverage in accordance with Centers for Medicare and Medicaid Services. The coverage is at least as good as the Medicare drug benefit and therefore considered "creditable coverage". Refer to *Medicare.gov* for complete details.
