RE: Healthy School Act of 2000
Annual Notification Pursuant to Education Code Section 17612 - **Updated**

Dear Parents/Guardians and Staff Members;

On September 25, 2000, Governor Davis approved Assembly bill 2260, which established the Healthy Schools Act of 2000. The Healthy Schools Act of 2000 requires that the Western Placer Unified School District annually provide notification to all staff and parents/guardians of the names of certain pesticide & herbicide products that may be applied at the school sites within the district during the upcoming year. Attached is the list of the pesticide and herbicide products that the District may use during the 2018-19 school year. The list has been updated to reflect additional herbicide products to be used and to delete Round-Up herbicide product from the list.

Information concerning any identified pesticide product or any active ingredients in the identified pesticide products may be obtained from the Department of Pesticide Regulation at (916) 445-4300; www.cdpr.ca.gov.schoolipm.info If you desire notification of the pesticide applications at your school site prior to their use, contract your school office to register for such notifications. Registrants shall receive notification of individual pesticide applications at least 72 hours prior to the application, whenever possible. Such notification will include the product name, active ingredients(s) and the intended date of application. The school site integrated pest management plan can be found at each school site office or on our School District website; <http://www.wpusd.org/Departments/Maintenance--Operations/index.html>

If you have any questions regarding this issue, please contact the Maintenance Department at (916) 434-5000.

Sincerely,

Audrey Kilpatrick,
Assistant Superintendent of Business & Facilities and Maintenance Services
